Unlimited Data allowance is subject to data fair usage policies. Where customers regularly tether to 12 or more devices or have used 650GB of data twice within a 6 month period then we may investigate to ascertain whether your unlimited data usage is in line with standard use and our Artificially Inflated Traffic (AIT) policy. In the event it is determined that usage is for non-standard purposes then we reserve the right to adjust the plan or to terminate the agreement.

Whilst roaming outside of the UK on unlimited data plans, and within standard inclusive or daily roaming destinations, usage is capped at 25GB per month and roaming restrictions may be applied.
