Product Summary

Additional Dual concurrent 2.4ghz+5ghz 3x3 WiFi Access Point (Weatherproof), 1 x Gigabit Ethernet Port.

Can be added to any SimRush bundle to extend WiFi coverage.

Product Description

The wAP One+ is a small weatherproof wireless access point for your mobile devices, perfect for installation outside your house, in the garden, on your porch or anywhere else where you need wireless access from your phone or computer.

The device has one Gigabit Ethernet port, it supports 802.11ac technology with Dual concurrent 2x2 MIMO 2.4ghz & 3x3 MIMO 5ghz radios (802.11a/b/g/n/ac) It looks unobtrusive and sleek and is available in two colours -black or white.

The wAP One+ (Weatherproof) can be fixed to any external wall from the inside of the case so that it is securely attached to it's mounting location. The bottom door can also be secured with a special screw which can only be opened by the owner. It

is also possible to run the Ethernet cable directly behind the unit, to inside the wall as there is a special opening on the back of the case. This way, the unit doesn't attract attention and blends into any environment.
